SKILLS

- Programming Languages:** Java, C++, Python, JavaScript, TypeScript
- Core CS Fundamentals:** Data Structures & Algorithms, OOPS, DBMS, OS, SDLC
- Web Technologies:** HTML, CSS, React.js, Node.js, Express.js, Next.js
- Databases:** SQL, MySQL, MongoDB
- Tools & Version Control:** Visual Studio Code, Eclipse, Postman, Git
- DevOps & Cloud:** Docker, AWS, Microsoft Azure

PROJECTS

- Hotel Booking and Management** | React.js, Node.js, Express.js, MongoDB, Axios, REST API **Jul 2025 - Aug 2025**
- Designed a full-stack hotel booking platform using MERN stack.
 - Implemented secure user authentication, hotel dashboards, and real-time booking updates.
 - Developed REST APIs and integrated Axios for seamless client-server data flow.
- Car Showcase Application** | React.js, Next.js, Tailwind CSS, TypeScript, REST API **Jan 2025 - Feb 2025**
- Developed a car hub platform delivering a seamless and consistent user experience across devices.
 - Integrated API-based data fetching to fetch, and display car listing data across multiple components.
 - Built reusable and type-safe components using TypeScript for better code reliability and maintainability.
- Movie Recommender System (Content-Based)** | Python, Pandas, scikit-learn, Heroku **Jan 2025 - Feb 2025**
- Built a content-based movie recommendation system to provide personalized suggestions using movie metadata and user viewing history.
 - Performed data cleaning, exploratory analysis (EDA), and feature preparation to transform movie attributes into model-ready inputs.
 - Compared similarities between movies to generate recommendations and hosted the application on Heroku for live demonstration.

TRAINING

- Skill Development (LPU)** **Jun 2025 - Jul 2025**
- Mastering Data Structures and Algorithms
- Acquired expertise in arrays, linked lists, stacks, queues, trees, graphs, and dynamic programming.
 - Developed a project implementing various DSA concepts to solve real-world problems efficiently.

CERTIFICATES

- Advanced React | [Coursera](#) **Oct 2025**
- Master Generative AI & Generative AI Tools (ChatGPT & more) | [Infosys](#) **Aug 2025**
- Build Generative AI Apps and Solutions with No-Code Tools | [Coursera](#) **Aug 2025**
- Java Programming | [IamNeo](#) **May 2025**
- Mastering Data Structure and Algorithms | [Udemy](#) **Jul 2024**

ACHIEVEMENTS

- Worked with core data structures in Java including arrays, linked lists, stacks, queues, and trees for algorithmic problem-solving.
- Successfully solved over 200 Data Structures and Algorithms (DSA) problems on platforms such as LeetCode and GeeksforGeeks, demonstrating strong coding efficiency and problem-solving capabilities.

EDUCATION

- Lovely Professional University** **Phagwara, Punjab**
Bachelor of Technology - Computer Science and Engineering: **Aug 2023 - Present**
